

M3 MathWorks Math Modeling Challenge

A program of **siam**.

£75,000+ in SCHOLARSHIPS

Register teams by February 23, 2024
Challenge weekend: March 1–4, 2024

- Free and 100% internet-based
- High school juniors and seniors in U.S. and sixth form students in U.K.
- Form a team of 3–5 students with one coach
- Choose your 14-hour worktime and location
- Submit a solution to the open-ended modeling problem
- Additional prizes available for teams submitting code
- Finalists get all-expense paid trip to New York City

During Challenge weekend, teams are given 14 hours to use the math modeling process to represent, analyze, make predictions about, and provide insight into an open-ended, real-world problem. High schools in the U.S. (including territories and DoDEA) and schools with sixth forms (age 16–19) in England and Wales (including British Schools Overseas) are eligible to participate in M3 Challenge 2024.

A Program of

siam | Society for Industrial and Applied Mathematics

PREPARE to MODEL!

THIS COULD BE YOU!

Eltham College from London, England, won the M3 Challenge 2023 Technical Computing Award and an all-expense paid trip to New York City to present their paper.

The team was comprised of Oles Chaban, Atharv Gupta, Ben Robinson, Alice Sanderson, Ethan Southward, and teacher-coach Benjamin Eastley.

FREE RESOURCES at m3challenge.siam.org/resources

Read the Modeling Handbooks

Written by M3 problem writers and judges, *Math Modeling: Getting Started and Getting Solutions* is a terrific introduction to the modeling process. *Math Modeling: Computing & Communicating* goes beyond the basic process of mathematical modeling to technical computing using software platforms and coding.

Practice your skills

Sample and practice problems will help you prepare for the Challenge problem.

Watch the Math Modeling video series

Seven 2–3 minute episodes that provide instruction and insight about each component of the modeling process.

Access free software

You can request MathWorks' MATLAB software for free! Look for "Access Software" and "Learn Technical Computing" on the website. Use of software, coding, and technical computing is not required to participate or win, but using them makes you eligible for the M3 Challenge Technical Computing Award.

Teach Modeling using the GAIMME report

"Guidelines for Assessment and Instruction in Mathematical Modeling Education" (GAIMME) is a great resource for teacher-coaches!

Peruse the "Tips and Guidance" webpage

Suggestions from past participating students, coaches, judges, and from organizers of the Challenge.

Technical Computing

Teams that use a programming platform other than spreadsheets (Excel or other) in an outstanding way will be eligible for an additional distinction—the M3 Challenge Technical Computing Award.

More Winning Strategies

Check out the archives to see past Challenge problems, winning solutions, judge perspectives, and presentation videos organized by year.

Go on a YouTube binge

Visit "M3 Challenge" playlist on SIAM's YouTube page to familiarize yourself with all aspects of the Challenge.
